Participatory Leadership**

# **Art of Participatory Leadership**

## **February 3 - 5, 2016**

### **What is it?**

Art of Participatory Leadership is a three-day, experiential learning workshop that will equip participants with the tools and techniques to bring their leadership to a whole new level where they will effectively be able to lead, engage, and collectively work to create change.

### **Why should I go?**

Your leadership is needed now. Traditional leadership falls short in times of complex challenges. If you want to lead effectively now, it will take you to strengthen your interpersonal communication skills, have a solid understanding of group dynamics, and know what it means to have a learning organization. These methods and tools are utilized in businesses, institutions, governments and communities around the world. We encourage pairs and teams from organizations to join us, no one does this work alone.

### **Logistics?**

February 3 - 5, 2016 from 8:30am - 4:30pm each day.  
Registration: \$550 per participant (meals & materials will be provided)
