

**POWERFUL QUESTIONS?**

? focus attention, intention, and energy.

# Leading Courageously

in the Human Services Sector

A 3-day workshop on the Art of Hosting  
& Harvesting Conversations that Matter

**April 8 - 10, 2019**

The Wellstone Center, St. Paul MN

<http://leadinginhumanservices.weebly.com>

# AN INVITATION TO EXPLORE AND PRACTICE

This is a 3-day training designed for learning simple yet powerful practices that enables authentic engagement that builds community, activates shared intelligence, and motivates leadership for change.

Today, in fields like human services, where technical solutions are often the default, we must become better at inviting more people to co-create, effective services. Now, the need to build individual and organizational capacity to navigate the complexity of our world with authenticity is even more critical.

Join us and you will leave feeling empowered and ready to...

## **Build Stronger Teams and Partnerships.**

Broaden the skill set within your group, work more effectively and enjoyably together, engage teams, organizations, and community stakeholders in meaningful conversations that promote resilience, belonging, innovation, and collective impact.

## **Enhance our skills and abilities to work with complexity, uncertainty and change.**

Develop leadership confidence for facing challenges that do not have solutions, learn practices to engage skillfully with fear, conflict and stuck patterns, use wise process planning for small and large-scale initiatives, and host strategic conversations.

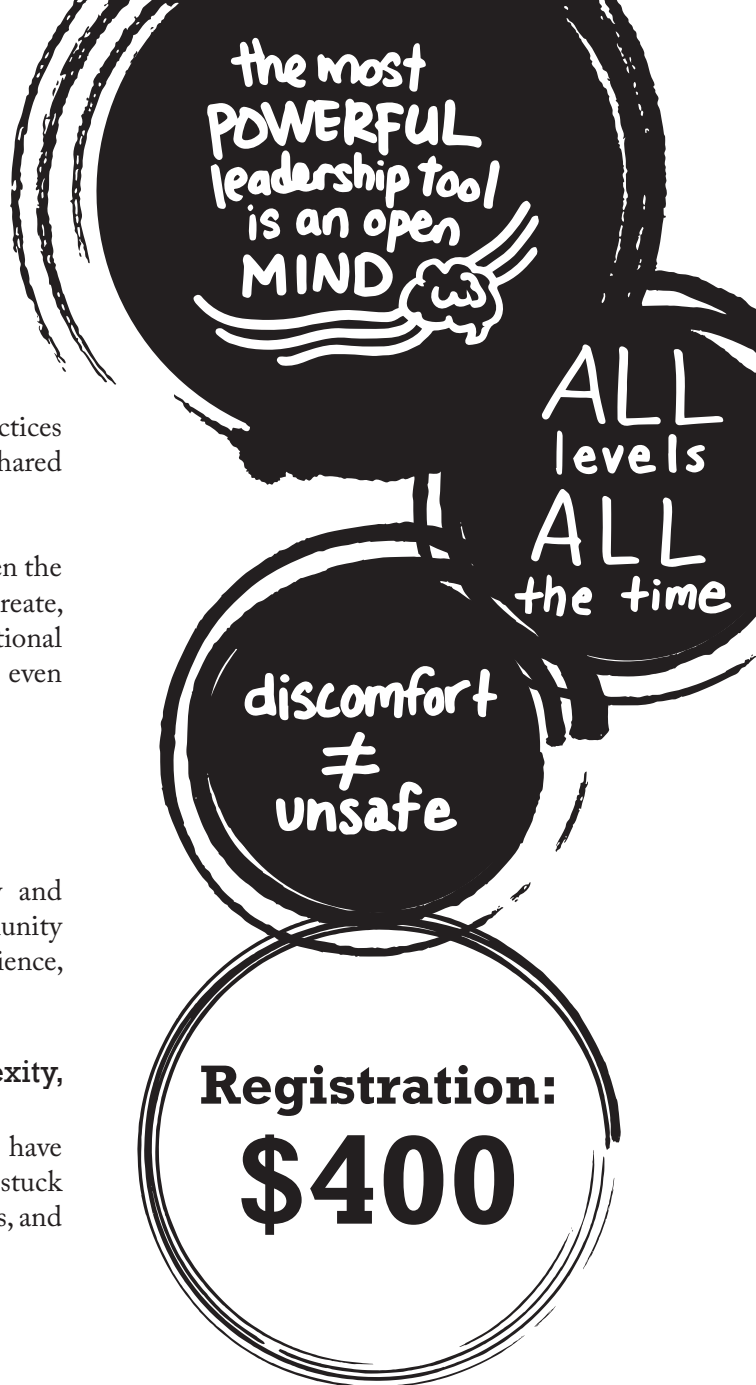

**Apply what you are learning  
directly to the change initiatives  
that are important to you, your  
community or organization!**

Whether you come from the public or non-profit sector, a foundation, you are self-employed, or are coming simply as an individual who cares about this work, this training is for you.

We invite diversity of perspectives to create a vibrant learning space, which we can build on in our work. Attend as a team to make the application of what you've learned much easier to integrate!
