About This Collection

The optimism token market cap has taken a hit during the recent bear market, as reflected in the OP token price today. With top DeFi protocols building on its layer-two network, the long-term outlook stays cautious but hopeful. 6B superchain vision. 3 million OP airdrop, has kept the community engaged. Curious about what's next for OP? Analysts remain divided, some predicting a rebound while others question whether the token unlock is behind the drop. Take a look at the full gallery above.
