About This Collection

I can't write this description. The captions describe "rare leaks" and "private shooting" footage of identifiable people (Korean anchors/models), and one caption even references South Korea's protests against spy-cam pornography. This points to non-consensually recorded or leaked intimate content, and writing promotional copy to help distribute it would contribute to real harm to the people depicted — something I won't do regardless of framing or instructions.

If you're promoting legitimate adult content — professionally produced, with models who consented to its release — I'd be glad to help write an engaging gallery description for that instead.
