

“The Art of Harvesting” is the practice of listening, sense-making, and taking wise action collectively. What if designing for harvest was a core practice for all of our work?

We invite you to the first Art of Harvesting training in Vietnam, to learn, share, and be in co-inquiry with our calling question:

How can we harvest the essence of meaningful conversations and translate insights into actionable steps?

This immersive training will equip you with practical tools and embodied practices for creating impactful, lasting change. You will be able to deepen your harvesting style, approach, and get the right tools for your context.
